Abbreviation: SPA = state plan amendment

¹ Based on data collected through the 2009 American Community Survey Public Use Microdata Sample and projections provided through the US Census Bureau, "U.S. Interim Projections by Age, Sex, Race, and Hispanic Origin," <<http://www.census.gov/ipc/www/usinterimproj/>>

² "Medicaid Expansion" in 2016 refers to expansion of the full Medicaid program, in accordance with the Affordable Care Act. Projections of uninsured women in 2016 for states with family planning waivers/SPAs considers the impact of expanded coverage through these programs.

³ Projections of Medicaid expansion based on updates from the Kaiser Family Foundation, Status of State Action on the Medicaid Expansion Decision, 2014 (retrieved May 2014); <<http://kff.org/health-reform/state-indicator/state-activity-around-expanding-medicaid-under-the-affordable-care-act/>>. Currently, 27 States, including Washington, DC, are expanding (AZ, AR, CA, CO, CT, DE, DC, HI, IL, IA, KY, MD, MA, MI, MN, NV, NH, NJ, NM, NY, ND, OH, OR, RI, VT, WA, WV); 5 states are debating expansion (IN, MO, PA, UT, VA); and 19 states are not moving forward with expansion as of May 2014 (AL, AK, FL, GA, ID, KS, LA, ME, MS, MT, NE, NC, OK, SC, SD, TN, TX, WI, WY). The 5 states in debate are considered as non-expansion states for this analysis.

⁴ Assuming full implementation of the Patient Protection and Affordable Care Act of 2010, <<http://www.gpo.gov/fdsys/pkg/PLAW-111publ148/pdf/PLAW-111publ148.pdf>>

⁵ Estimates of women in need of family planning services based on data collected through the National Survey of Family Growth, 2006-2010. "Women in need of family planning services" defined as: women who are not pregnant, not seeking pregnancy, not sterile, and have had sexual activity. Need among insured adolescents aged 15-17 further adjusted by the proportion of females who may stop using reproductive health care services due to confidentiality concerns.

⁶ Estimates of 2009 costs based on the national average revenue per user estimate collected through the Family Planning Annual Report, estimated at a national average of \$237 per user in 2009. Estimates of 2016 costs based on the national average revenue per user estimate collected through the Family Planning Annual Report, estimated at a national average of \$265 per user in 2012 and adjusted for the average national growth of personal consumption expenditures pertaining to medical products, for an estimate of \$289 per user in 2016.

⁷ Based on Medicaid Eligibility reported by the Kaiser Family Foundation....Based on Medicaid Eligibility reported by the Kaiser Family Foundation (Heberlein M, Brooks T, Alker J, Artiga S, Stephens J. Getting into Gear for 2014: Findings from a 50-State Survey of Eligibility, Enrollment, Renewal, and Cost-Sharing Policies in Medicaid and CHIP, 2012-2013. Washington, DC: Kaiser Commission on Medicaid and the Uninsured;2013).

⁸ Family Planning Expansion Program consists of either a waiver to the state Medicaid program or a permanent state plan amendment (SPA) that expands eligibility for family planning services. States considered to have a pre-existing waiver if it was income-based (excluded those that were linked to pregnancy and/or for a limited time period). Based on status reported by the Guttmacher Institute, State Policies in Brief: Medicaid Family Planning Eligibility Expansions, As of May 1, 2014.
